### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Justine Wilbur on 11/16/2010.

The application has been amended as follows:

**Claims 31-42 are cancelled.**

2. The following is an examiner's statement of reasons for allowance:

**Claims 21, 24-26 and 28-30 are allowable for the following reasons:**

Regarding claim 21, Kataoka (JP 09-036405) discloses a process of producing a solar battery module with plural solar batteries in a side-by-side configuration, the cells being surrounded on top and bottom by a first and second sealing resin sheet (drawing 4) but fails to teach resin sheet pieces having a thickness thicker than the cells such that the first and second resin sheets and the resin sheet pieces are heated to form a molten sealing resin that, when cooled, seals the solar battery module.

Fujisaki (JP 61-166182) discloses the use of spacers (4) in the intervals between solar cells in a resin-laminated PV module (Figure). The reference is silent as to the resin pieces being melted by heating and thus forming a molten sealing resin in conjunction with the first and second resin sheets.

Kataoka and Fujisaki (alone or in combination) fail to disclose or render obvious a method in which resin pieces are arranged at a space between solar battery cells so as to be sandwiched by first and second sealing resin sheets such that, when heated, the resin sheets and pieces form a molten sealing resin that, when cooled, seal the solar battery module. The references also fail to teach that the thickness of the sheet pieces to which a load has been applied is reduces and the cells or portion of conductor connected to the cells is brought into contact with the upper and lower sealing resin sheets.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
